

Na Hale O Haku

the world's most romantic wedding site

2008 Cottage Rate

There are many—in fact, over fifty—cottages available in the Waimea Plantation to accommodate all of your guests. The following are provided as examples of the charm and simplicity of the Plantation.

West Kauai's flourishing Sugar Company built these charming cottages in the early 1900's for its employees and their families. Today, they are enjoyed by people from all walks of life who come alone, as couples, in groups of family or friends. Here, time can stand still and one can enjoy the relaxing surroundings, beauty of nature, and the many activities Kauai has to offer. The cottages are appointed with period furnishings of mahogany, rattan or wicker. Each cottage is unique and has been created or restored to retain a charming historical simplicity.
